

**Make a pledge and ask your regional church to set targets for church land use**

This postcard action lets you show your own commitment to climate and nature-friendly land use and then challenge your regional church to set targets for sustainable land use.

## Step by step guide to writing your card

**These are the 7 key areas from ON's Church Land Use Vision**

Some churches are further along this journey than others, but the vision suggests targets for 2026 and 2030.

**1) Tick one or more of these top 3 boxes to pledge your action(s)**

These relate to the three areas identified as most important for climate benefit.

**2) Tick the last box to ask for action**

This is the main postcard request.

**3) Add the name of your regional church representative**

**4) Add your own message**

**5) Add your name & email**

**6) Tick boxes for follow-up**

## CHURCH LAND USE VISION

We're asking for action on:

- Transparency
- Mapping
- Emissions
- Biodiversity
- Growing trees
- Protecting peat
- Supporting farm net zero

**I have pledged to...**

- Plant a nature-friendly tree
- Support a peat protection campaign
- Buy some food from a local nature-friendly farmer and share with others
- Ask my Church to set targets for sustainable Church Land Use

Dear \_\_\_\_\_

I care about God's creation and the way our church-owned land is used. I have pledged to take action overleaf, and I call on you to set ambitious targets for reducing emissions and promoting nature on church land. Check out Operation Noah's Church Land Use vision for inspiration.
